Product Specification

Packaging Contents:

Carrying Case x1/ Hex80 Keyboardx1/Accessory Kitx1/User Manual x1
Compliance Certificate x1

Complimentary Accessories:

Backup Switches x4/USB Cable x1/Keycap & Switch Puller x1

Dimensions:

357×136.5×35 mm (Excluding rubber feet)

Front Height:

18 mm with 7° typing angle (Excluding rubber feet)

Connection & Configuration

Keyboard Connection:

Connect your keyboard to your device using the included USB-C to USB
-A cable. The keyboard lights will illuminate when successfully
connected.

·For optimal performance, calibrate all keys through the **ATK HUB** Web
Configurator before initial use.

·The keyboard needs to be connected to a USB 3.0 port to ensure
stable power supply and optimal product performance.

Web Configurator:

Visit **HUB.ATK.STORE** to access all keyboard features, including custom
key mapping, macro configuration, and other advanced functions.

Important Notice

This device contains Hall effect sensors and magnetic components.
Please keep it away from magnetic objects to ensure normal operation.
